

Grade Comparisons

The following table outlines the distribution of Grade Point Averages by course for FY 2007-2010, at eCore overall and affiliate level. eCore affiliates have also provided campus class grades for comparative analysis (excluding Spring 2010). The eCore overall GPA was calculated across FY, and eCore affiliate GPA's were calculated by semester and averaged for the FY. Any affiliate level course with fewer than 7 students in the FY are masked with an asterisk (*). The successful grade percents for eCore overall (Grades A-B-C) are identified at the end of the table.
