

Overall Student Course Satisfaction

Each semester, two weeks prior to exams, eCore students are asked to complete an evaluation of the course and instructor. After course evaluations are completed, the individual course section ratings are provided to the eCore faculty member as a part of the professional development experience.

The eCore course evaluation survey instrument can be found at:

<http://ecore.usg.edu/admin/eCoreCourseEval.pdf>

For the course evaluation questions that can be quantitatively scored, five-point Likert scale calculations are performed. For Summer and Fall 2010 there were 24 Likert scoring questions, and for Spring 2011 the course evaluation was reworked to include 19 Likert scoring questions. The questions cover these categories:

- Instructor Satisfaction
- Course Satisfaction
- Course Usability Satisfaction
- Student Preparedness
- Online Learning Environment

For the Likert calculation process, the highest rating is five and the lowest rating is one.

For FY 2011, the responses to select were: Strongly Agree (5), Agree (4), Neutral (3), Disagree (2), and Strongly Disagree (1).

Below are the Overall Likert Score calculations for FY 2011, separated by each semester.
