

## Collaborative Model

### eCore Accreditation

#### Southern Association of Colleges and Schools (SACS) Commission on Colleges

In 2001, the initial five eCore Affiliate institutions (Georgia Highlands College, University of West Georgia, Valdosta State University, Columbus State University, Clayton State University) participated in a distance education substantive change visit by SACS. As a result of the visit, those institutions were considered compliant with SACS regulations for the delivery of online courses for the eCore program.
