

Overall Student Course Satisfaction

For FY 2012 more than 2,400 students completed course evaluations. After course evaluations are completed, the individual course section ratings are provided to the eCore faculty member as part of the professional development experience.

The eCore course evaluation survey instrument can be found at: <http://ecore.usg.edu/admin/12spring/index.html>

For the course evaluation questions that can be quantitatively scored, five-point Likert scale calculations are performed.

In FY 2012 there were 19 Likert-style questions, covering the following categories:

- Instructor Satisfaction
- Course Satisfaction
- Course Usability Satisfaction
- Student Preparedness
- Online Learning Environment

The response options for questions in these categories were: Strongly Agree (5), Agree (4), Neutral (3), Disagree (2), and Strongly Disagree (1).

Below are the averaged Likert score calculations for each semester along with the overall average calculations for FY 2012 (semesters combined). For comparison, the overall average Likert score calculations for FY 2011 (semesters combined) are provided.
