Faculty Information

Through enrollment and faculty management, eCore provides statewide quality online courses. Faculty are a critical part of eCore’s consistent success; therefore, much emphasis is given to continual support and training. This Faculty section of the FY 2013 Factbook provides an overview of data, activities, and results related to course instruction and curriculum. The Curriculum and Instruction Department manages and supports eCore faculty and oversees course instruction, design, and development. The information below should inform the reader of current processes in place to ensure quality in eCore instruction, as well as some facts about our instructors.
