

Grade Comparisons

The following tables represent the eCore grade distribution findings for FY 2013. The first chart is a summary of Percent Successful Grade (Grade A-B-C) by Fiscal Year for eCore since FY 2007. The first table is the eCore Grades by Term for FY 2013, for Percent Successful Completion (Grade A-B-C) and Percent Course Completion (No Withdrawals). There is also a table identifying the Short Session course rates for FY 2013, which was the first time short session courses were offered in eCore. The third (large) table reports eCore Grades by Course and Affiliate for FY 2013. The eCore affiliates have also provided comparative campus course grade distributions in order to make an assessment between eCore and Campus courses.

Legend:

NT	Identifies that a course was not taught
Masked	Identifies data not represented because the eCore or Campus course enrollment was for seven or fewer students
No Data	Identifies any eCore course not taken by the affiliate's students
Not Reported	Identifies an eCore course that may not have a comparative campus course offered by the affiliate

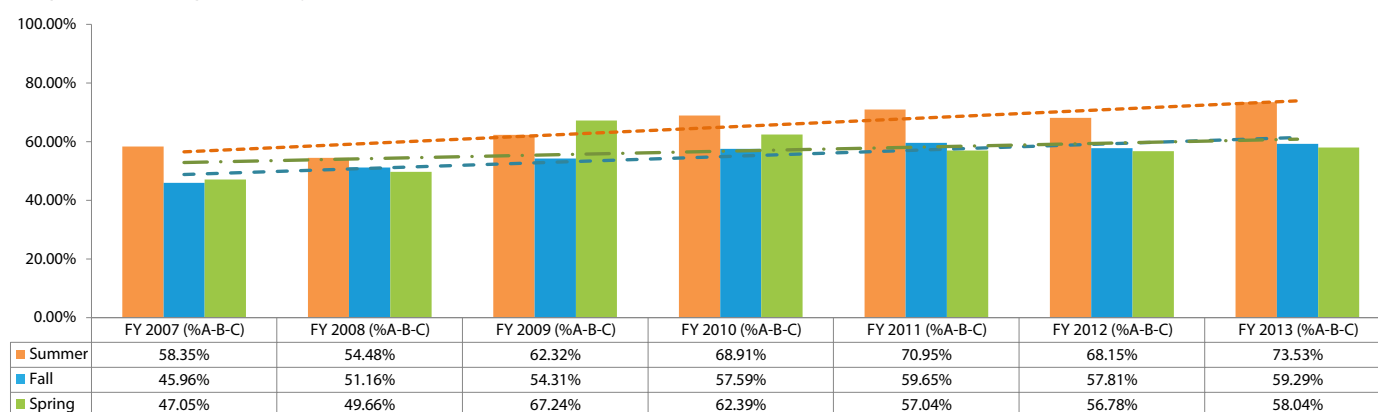

eCore Percent Successful Completion (A-B-C) FY 2007 – FY 2013 (Summer 2006 – Spring 2013)

Total Percent Success (A-B-C) by Fiscal Year begins in Summer 2006 (FY 2007) and ends in Spring 2013 (FY 2013). The trend is increasing for Summer, from below 60% to mid-70%, slightly increasing for Fall, from 50% to 60%, and slightly increasing for Spring (from low 50% range to just over 60%). Success rates are affected in part by new student population when new institutions become eCore affiliates or by highly motivated transient students taking only summer classes.

Highest Summer: Summer 2012, 73.03%

Highest Fall: Fall 2011, 59.65%

Highest Spring: Spring 2009, 67.24%
