

Course Completion by Affiliate

Grade Comparisons

The following tables represent the eCore grade distribution findings for FY 2014. The first chart is a summary of Percent Successful Grade (Grade A-B-C) by Fiscal Year for eCore since FY 2007. The first table depicts eCore Grades by Term for FY 2014, for Percent Successful Completion (Grade A-B-C) and Percent Course Completion (No Withdrawals). There is also a table identifying the Short Session course rates for FY 2014, which was the first time short session courses were offered in eCore. The third (large) table reports eCore Grades by Course and Affiliate for FY 2014. The eCore affiliates have also provided comparative seated campus course grade distributions in order to make an assessment between eCore and seated campus courses.

Legend:

Masked	Identifies data not represented because the eCore or Campus course enrollment was for seven or fewer students
Not Reported	Identifies an eCore course that may not have a comparative campus course offered by the affiliate
