

Course Completion by Affiliate

Grade Comparisons

The following sub-sections represent the eCore grade distribution findings for FY 2015. The first sub-section chart is a summary of eCore Percent Successful Grades (Grade A-B-C) by Fiscal Year since FY 2007. There is also a sub-section identifying the Short Session course rates for FY 2013-2015. eCore Short Session courses began in FY2013. The third sub-section reports eCore Grades by Course and Affiliate for FY 2015 and provides a meta-assessment to comparative affiliate grade distribution data for the same semesters. The affiliate data are representative of face-to-face, partial and total distance delivery, and other special course options at that campus such as honors or learning cohorts.
